# Counting Fruits and Vegetables

## How much is a cup?

In general, 1 cup of fruit or 100% fruit juice, or ½ cup of dried fruit can be considered as 1 cup of fruit. Counting vegetables is similar -- 1 cup of raw or cooked vegetables or vegetable juice, or 2 cups of raw leafy greens can be considered as 1 cup of vegetables. This chart lists specific amounts for fruits and vegetables.

<b>Applesauce</b>	1 cup
<b>Banana</b>	1 cup sliced 1 large (8" to 9" long)
<b>Cantaloupe</b>	1 cup diced or melon balls

<b>Strawberries</b>	About 8 large berries 1 cup whole, halved, or sliced, fresh or frozen
<b>Watermelon</b>	1 small wedge (1" thick) 1 cup diced or balls
<b>Dried fruit (raisins, prunes, apricots, cranberries, etc.)</b>	½ cup dried fruit is equivalent to 1 cup fruit
<b>100% fruit juice (orange, grape, apple, etc.)</b>	1 cup

The amount of fruits and vegetables you should eat depends on your age, sex, and level of physical activity. Most adults need 2 – 3 cups of vegetables and 1 ½ – 2 cups of fruit each day. More specific recommendations can be found at
